Re: Selection of stakeholder group for visioning process for the western intersection of Route 2/102

Upon review of the scope of work and process that was submitted to the Town from the Consensus Building Institute, you should note that the final selection of the group will need to be approved by the Town Council. Furthermore, Ona Ferguson of the CBI is asking that the Town Council specifically review the section of the stakeholder group dealing with the business/developer group to give guidance and make a final decision on the makeup of that portion of the group. There were numerous opinions, as you will note in the scope, on how that group should be represented. If you should have any questions about this information, please feel free to contact the planning department at extension 310.
