

Understanding and Addressing Climate Change Impacts in North Kingstown

Join us for 2 public events at the
North Kingstown Free Library Program Room:

The University of Rhode Island Coastal Resources Center/Rhode Island Sea Grant (CRC/SG) and the North Kingstown Free Library invite you to attend a free public event focused on understanding and addressing the potential impacts of storms and sea level rise on North Kingstown and Rhode Island:

PUBLIC LECTURE

Thursday, April 18, 6:00 - 8:00 p.m. *(Please RSVP)*

Doors open at 6:00 p.m. to view maps/displays; Public Lecture starts at 6:30 p.m.-- Janet Freedman, a geologist from the R.I. Coastal Resources Management Council, will explain what these impacts are, and URI CRC/SG coastal planners Teresa Crean and Pam Rubinoff will present a project that is helping North Kingstown better protect people, property and public infrastructure from the effects of erosion, flooding and sea level rise.

Please **RSVP** for the April 18 lecture to amber@crc.uri.edu. Visit the web site at <http://seagrants.gso.uri.edu/climate/index.html> or call 874-6107 with questions.

OPEN HOUSE

Saturday, April 20, 10:00 a.m. – 12:00 p.m.

Drop in on your own schedule to learn about sea level rise and climate change adaptation in North Kingstown through maps & displays. SHARE YOUR INPUT on which vulnerable assets you would like to see protected through management policies and public investment.
